Certificates awarded to the 1st to 4th place winners .

The aim of this class is to obtain good clear photos of cats from various angles in order to help trainee judges learn about the Tonkinese. So your support is very valuable.

For each cat entered in Class 70 please submit three photos: –

- 1) Head showing full face and eye colour,
- 2) Head in profile showing nose break and chin,
- 3) Full body standing, from the side in order to show the cat's full coat-pattern.

How to re-name your photo files for the show

These instructions are for anyone who uses Windows. To make things easier for yourself create a show folder on your PC to store a copy of all the photos you want to enter into the show. Then transfer a copy of any relevant photos from your mobile, cloud storage or other folders on your PC into your new show folder.

To rename the photo files you now have in your PC show folder:

- 1) Click on a photo and press the **F2** key. The photo will become outlined and the existing filename will be highlighted in a blue text box.
- 2) Just type in the required name (see Rule 5) e.g. **C1 – Mymystic Mirage L Vousden**
- 3) Now click outside the text box (or press the Enter key) to save the name change.

Your photo is now ready to enter into the show. If you make a mistake while typing the photo file's new name, you can press the Esc key to return to the original name, but only while the text box is highlighted in blue.
